

Darby Dizard: Down for You - CD Reviews

Lovely, voluptuous, animated, talented, sonorous, certainly sexy, & compelling is the craft of one jazz singer Darby Dizard. And, Like the movie states, she ‘‘had me ‘’ at her name as well! This is a vocalist who can turn a phrase in favor of romantic fascination, soul, & wit in her phrasing. Plus, there’s an aesthetic consideration in her delivery that’s hard to discard. She sings the American Songbook with a certain clarity, logic, cause, & effect in her renditions. Darby sings to us with a tremendous range of mental fantasy, encompassing pastoral scenes to moonlit nights. She doesn’t intrude on her music. She gives her music a soul.....A personality.....And through her objectivity, an ultimate expression to its end.....Namely, interpretation.
